REMARKS: I have discovered that some of the RFPs that were to have been FAXed to Project Advisory Committee members were not. Therefore, I am FAXing this draft RFP to you for your review. Please provide me comments no later than Thursday of this week on any changes whatsoever you would like to see in this RFP. I will be deleting much of the existing Phase 2 text and focus the RFP on Phase 1 only. Phase 2 text has proven confusing to reviewers, and I do not want the proposers to be confused. I apologize if you did not previously receive a copy of this RFP. Thank you for your help.

Frank J. Blaha

If you experience trouble with this transmission, please call sender above as soon as possible.
